

SAT & ACT Small Groups

Our SAT & ACT Small Groups are 8-week intensive courses. Methods and strategies specific to each type of question are incorporated into a personal process that gives the student control and confidence to take the tests.

FEATURES

The total cost for the small groups are \$1,400 per student. We keep our classes small, with only 4 to 6 students per group, in order to maximize the personalized attention each student gets from the instructor.

Groups meet twice a week for 2 hours each day - 2 hrs of reading & writing, and 2 hrs of math (and science for the ACT). Classes run for 8 weeks leading up to the date of the test. The 5th week of the course, students have off

to take a practice SAT or ACT (Sim Test). These practice tests enable the tutors to evaluate and pinpoint the weaker areas in the students' performance, and give students the opportunity to experience taking a real SAT or ACT.

"The classes were extremely small and taught me how to approach the SAT. The teachers pinpointed what I needed to improve on and helped me do so efficiently."

— L.R., Branchburg, NJ
(220 point improvement)

BENEFITS

These small groups are ideal for the student who enjoys a "team-feel" to preparation but wants a small enough class to have a relationship with the instructor and other students. They provide a positive environment and feedback from instructors and peers, and are best for those who work well with others, while providing a cost-effective way to prepare for the SAT.
